### Soft Skills:

- Strong communication and collaboration
- Problem-solving and critical thinking
- Attention to detail, time management

## EDUCATION

### Univesity of Sargodha

Master of Science in Information Technology

### College of Commerce, Jauharabad

Associate Degree in Computer Science

## EXPERIENCE

Spent over 6 months building real-world web projects using HTML, CSS, JavaScript, React.js, and Bootstrap. Developed an e-commerce site, task management app, and personal portfolio. Gained practical skills in responsive design, state management, API integration, and GitHub for version control, with all projects showcased on my website.

## About Me

Hello, I'm Farhat, a front-end developer with a Master's in IT from the University of Sargodha. I specialize in creating responsive, user-friendly web applications using HTML, CSS, JavaScript, React.js, and Bootstrap. With expertise in Material UI and styled-components, I focus on building scalable and visually appealing interfaces. I'm also proficient in GitHub for version control and collaboration. I'm seeking a junior to mid-level role where I can contribute to innovative web solutions and grow professionally.
